

## 32kw C Arm Radiology Equipment Computerised Xray Machine Custom

Our Product Introduction

for more products please visit us on [xray-system.com](http://xray-system.com)

### Basic Information

- Place of Origin: China
- Brand Name: VOLITION
- Certification: ISO13485、FSC
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Standard Exportation Package
- Delivery Time: 7-15 work days
- Payment Terms: LC, T/T, D/P, PayPal, Western Union

### Product Specification

- Resolution: Full HD (1920x1080)
- Power Supply: 110V/220V/380V
- Output Power: 40kw/32kw High Frequency Generator
- Display Technology: DLP
- Detector Size: 17"x17"
- Connectivity: Wi-Fi, Bluetooth, HDMI, USB
- Highlight: **32kw c arm radiology equipment, computerised c arm radiology equipment, custom computerised xray machine**

## Product Description

### Product Description:

The display technology used in this machine is DLP, which offers incredible image clarity and precision. This technology ensures that every detail is captured accurately, making it easy for dental professionals to make accurate diagnoses and treatment plans. The XGIMI MoGo Pro is the model of this portable digital x ray machine. It is designed to be used as a mobile xray machine, making it easy for dental professionals to take it with them wherever they go. This is particularly useful for those who need to visit multiple locations or provide services in remote areas.

The operating system used in this machine is Android TV 9.0, which is easy to use and navigate. This ensures that dental professionals can quickly and easily access the features and functions they need, without any hassle or confusion.

This portable digital x ray machine is a versatile and reliable option for dental professionals who need a high-quality digital x ray system. Its mobile design and powerful output make it an ideal choice for those who need to provide dental services on-the-go. With its DLP display technology and Android TV 9.0 operating system, this machine is sure to meet the needs of even the most demanding dental professionals.

### Features:

Product Name: Portable Digital X Ray Machine

Brightness: 300 ANSI Lumens

Detector size: 17"x17"

Type: Mobile

Display Technology: DLP

Sound System: Harman/Kardon Stereo Speakers

This portable digital x ray machine is a great dental radiograph machine that utilizes advanced digital x ray technology to produce high-quality images. With its 300 ANSI lumens brightness and 17"x17" detector size, it is capable of delivering clear and precise images quickly and accurately. Its mobile design makes it easy to move around and set up in any location. The DLP display technology and Harman/Kardon stereo speakers further enhance the user experience, making this digital x ray system a top choice for dental professionals.

### Technical Parameters:

Product Attributes	Values
Type	Mobile X-ray Machine
Model	XGIMI MoGo Pro
Display Technology	DLP
Aspect Ratio	16:9
Contrast Ratio	1000:1
Connectivity	Wi-Fi, Bluetooth, HDMI, USB
Screen Size	30-100 Inches
Detector Size	17"x17"
Brightness	300 ANSI Lumens
Sound System	Harman/Kardon Stereo Speakers

### Applications:

One of the primary applications of this digital x ray system is in the field of veterinary medicine. With its high-quality imaging capabilities and user-friendly interface, the VOLITION Portable Digital X Ray Machine is well-suited for use in veterinary clinics and animal hospitals. In particular, this product is an excellent choice for veterinary dental x ray machine applications, where precision and accuracy are essential.

In addition to its veterinary applications, the VOLITION Portable Digital X Ray Machine is also widely used in human medicine. Whether used for routine medical examinations, emergency procedures, or complex surgeries, this digital x ray system delivers superior image quality and reliable performance.

Another key advantage of the VOLITION Portable Digital X Ray Machine is its mobility. With its compact design and lightweight construction, this mobile xray machine can be easily transported and set up in virtually any location. This makes it an ideal choice for use in mobile medical clinics, remote field hospitals, and other situations where access to traditional medical facilities may be limited.

Finally, the VOLITION Portable Digital X Ray Machine is designed with a range of advanced features that enhance its performance and usability. These include a powerful 40kw/32kw High Frequency Generator, a large 30-100 inch screen size, and a versatile power supply that can accommodate 110V/220V/380V inputs. The product also features a high-quality sound system with Harman/Kardon Stereo Speakers, which ensures clear and accurate audio output.

With its superior imaging capabilities, advanced features, and mobile design, the VOLITION Portable Digital X Ray Machine is an excellent choice for a wide range of medical applications. Whether used in veterinary medicine, human medicine, or other fields, this digital x ray system delivers outstanding performance and reliable results every time.

Customization:

Our Portable Digital X Ray Machine is made in China and comes with ISO13485 and FSC certifications. The operating system is Android TV 9.0, providing a user-friendly interface for easy operation. The output power is 40kw/32kw High Frequency Generator, ensuring high-quality x-ray images. The power supply can be customized to fit your specific voltage needs, with options for 110V, 220V, and 380V. The contrast ratio is 1000:1, providing clear and accurate images. The sound system is equipped with Harman/Kardon Stereo Speakers for a high-quality audio experience.

Packing and Shipping:

Product Packaging:

- 1 Portable Digital X Ray Machine
- 1 Wireless DR Panel
- 1 Battery
- 1 Battery Charger
- 1 Carrying Case
- User Manual and Quick Start Guide

Shipping:

- Shipping Method: FedEx
- Shipping Weight: 20 lbs
- Shipping Dimensions: 20" x 16" x 12"
- Shipping Insurance: Included
- Tracking Number: Provided
