

380V Medical Mobile Radiography Equipment For Clinic Hospital Inspection

Our Product Introduction

for more products please visit us on xray-system.com

Basic Information

- Place of Origin: China
- Brand Name: VOLITION
- Certification: ISO13485、FSC
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Standard Exportation Package
- Delivery Time: 7-15 work days
- Payment Terms: LC, T/T, D/P, PayPal, Western Union

Product Specification

- Power Supply: 110V/220V/380V
- Aspect Ratio: 16:9
- Output Power: 40kw/32kw High Frequency Generator
- Type: Mobile
- Resolution: Full HD (1920x1080)
- Highlight: **380V mobile radiography equipment,
Clinic mobile radiography equipment,
380V medical radiology equipment**

Product Description

Product Description:

With a power supply of 110V/220V/380V, this machine is designed to work in almost any environment. Additionally, its 16:9 aspect ratio ensures that images are displayed in crystal-clear detail, providing accurate and reliable results.

Connectivity is no issue with this machine, as it comes equipped with Wi-Fi, Bluetooth, HDMI, and USB capabilities. This allows for easy transfer of data and images, ensuring that the machine is as versatile as possible.

As a mobile x ray machine, this product is designed to be easily transported and used in a variety of settings. Whether you're in a hospital setting, a clinic, or a remote location, this machine can provide the imaging capabilities you need.

The display technology of the Portable Digital X Ray Machine is DLP, ensuring that images are displayed with exceptional clarity and detail. This makes it an ideal choice for those looking for a cr x ray machine that can provide accurate and reliable results in any setting.

Overall, the Portable Digital X Ray Machine is an excellent choice for those in need of a portable x ray machine with exceptional imaging capabilities. With its powerful features and versatile design, it is an ideal choice for anyone looking for a reliable and accurate solution for digital radiography needs.

Features:

Product Name: Portable Digital X Ray Machine

Output Power: 40kw/32kw High Frequency Generator

Type: Mobile

Power Supply: 110V/220V/380V

Aspect Ratio: 16:9

Operating System: Android TV 9.0

Keywords: panoramic radiograph machine, radiology machine, panoramic radiograph machine

Technical Parameters:

Product Attribute	Value
Model	XGIMI MoGo Pro
Sound System	Harman/Kardon Stereo Speakers
Operating System	Android TV 9.0
Resolution	Full HD (1920x1080)
Power Supply	110V/220V/380V
Detector size	17"x17"
Aspect Ratio	16:9
Brightness	300 ANSI Lumens
Connectivity	Wi-Fi, Bluetooth, HDMI, USB
Display Technology	DLP

Applications:

The device is manufactured in China and has received ISO13485 and FSC certifications, ensuring its quality and reliability. It has a contrast ratio of 1000:1, which ensures that the images produced are clear and detailed.

The VOLITION Portable Digital X Ray Machine is a mobile type device and can be easily transported to different locations. Its small size and lightweight design make it ideal for use in remote areas or for on-the-go applications.

The product is equipped with various connectivity options, including Wi-Fi, Bluetooth, HDMI, and USB. This allows for easy integration with other devices and systems, making it a versatile and convenient tool.

The XGIMI MoGo Pro model, which is used in this product, features DLP display technology, which ensures high-quality images with accurate colors and sharp contrast.

The VOLITION Portable Digital X Ray Machine is suitable for a wide range of occasions and scenarios. It can be used in dental clinics, hospitals, veterinary clinics, industrial plants, and many other settings. It is an excellent tool for non-destructive testing, quality control, and material analysis.

In summary, the VOLITION Portable Digital X Ray Machine is a reliable, high-quality product that is ideal for various applications. Its advanced features and connectivity options make it a versatile tool that can be used in many different scenarios.

Customization:

Customize your VOLITION Portable Digital X Ray Machine to fit your specific needs!

Our handheld x ray machine from China offers Full HD (1920x1080) resolution and Harman/Kardon Stereo Speakers for the highest quality imaging and sound. It also runs on Android TV 9.0, making it easy to navigate and use.

Choose from a variety of product attributes, including:

Certification: ISO13485,FSC

Display Technology: DLP

Contrast Ratio: 1000:1

Whether you need a panoramic radiograph machine or a digital radiography machine, our customizable VOLITION Portable Digital X Ray Machine is the perfect solution for your imaging needs.

Packing and Shipping:

Product Name: Portable Digital X Ray Machine

Description: This portable digital x-ray machine is designed for easy transport and use in a variety of medical settings. It produces high-quality images with minimal radiation exposure and features easy-to-use software for image processing and analysis.

Packaging: The portable digital x-ray machine will be packaged securely to prevent damage during shipping. It will be placed in a sturdy cardboard box with foam padding to protect the machine and accessories. The box will also include a user manual, power cord, and any other necessary accessories.

Shipping: The portable digital x-ray machine will be shipped via a trusted courier service to ensure safe and timely delivery. Customers will receive a tracking number once the package has been shipped, and delivery times may vary depending on the destination.
