

## Custom Fluoroscopy X Ray DRF Machine For Veterinary 220V 60Hz

Our Product Introduction

for more products please visit us on [xray-system.com](http://xray-system.com)

### Basic Information

- Place of Origin: China
- Brand Name: VOLITION
- Certification: ISO13485、FSC
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Standard Exportation Package
- Delivery Time: 7-15 work days
- Payment Terms: LC, T/T, D/P, PayPal, Western Union

### Product Specification

- Max Capacity: 200 Lbs
- Frequency: 60Hz
- X-ray Tube Heat Capacity: 300Khu (210KJ)
- Weight: 50 Lbs
- Max Output Power: 50kw
- Dimensions: 24 X 18 X 12 Inches
- Output Power: 50kw
- Power Supply: 110V/220V
- Highlight: **Fluoroscopy X Ray DRF Machine,  
220V DRF Machine,  
Custom veterinary dental x ray machine**

## Product Description

### Product Description:

Made from high-quality stainless steel, this machine is built to withstand the rigors of daily use. It has a weight of 50 Lbs, making it easy to transport from one location to another. The machine is equipped with an X-ray tube heat capacity of 300Khu (210KJ), which ensures that it can produce high-quality images in a short amount of time.

The DRF Machine comes with a power supply of 110V/220V, making it compatible with most electrical systems. This feature ensures that the machine can be used in different locations without the need for additional equipment. Additionally, it is equipped with a user-friendly interface that makes it easy to operate, even for those who are not familiar with the technology.

One of the main advantages of the DRF Machine is its versatility. It can be used for a variety of procedures, including c arm fluoroscopy, which is a type of imaging that is commonly used in surgeries. It is also ideal for use in emergency rooms, where quick and accurate imaging is essential for diagnosis and treatment.

The DRF Machine comes with a 1-year warranty, which gives users peace of mind knowing that they are protected against any defects or malfunctions. This warranty is a testament to the quality of the machine, and the manufacturer's commitment to providing their customers with the best products and services.

Overall, the DRF Machine is a reliable and efficient digital fluoroscopy machine that is ideal for hospitals, clinics, and other medical facilities. Its advanced features, user-friendly interface, and versatility make it an excellent choice for those who require high-quality imaging for diagnostic purposes. Whether you need it for radiographic fluoroscopy or c arm fluoroscopy, the DRF Machine is the perfect tool for the job.

### Features:

Product Name: DRF Machine

Warranty: 1 Year

Dimensions: 24 X 18 X 12 Inches

Manufacturer: DRF Corporation

Output Power: 50kw

Power Source: Electric

Features:

Digital fluoroscopy machine

X ray fluoroscopy machine

Fluoro x ray machine

### Technical Parameters:

Frequency	60Hz
Weight	50 Lbs
Dimensions	24 X 18 X 12 Inches
X-ray Tube Heat Capacity	300Khu (210KJ)
Warranty	1 Year
Max Capacity	200 Lbs
Power Supply	110V/220V
Certifications	UL Listed, NSF Certified
Tube Current	630mA
Manufacturer	DRF Corporation

This mobile fluoroscopy machine is a radiographic fluoroscopic system, also known as an x-ray fluoroscopy machine.

### Applications:

With a tube current of 630mA, the DRF Machine is capable of producing crisp and clear images for a wide range of applications. Its x ray fluoroscopy machine capabilities make it an ideal choice for healthcare professionals working in areas such as orthopedics, neurology, and cardiology.

One of the standout features of the DRF Machine is its c arm fluoroscopy machine capabilities. This allows medical professionals to easily manipulate the device to capture images from various angles and positions, making it an ideal choice for surgeries and other procedures that require precise imaging.

In terms of certifications, the DRF Machine from VOLITION has been awarded ISO13485 and FSC certifications, as well as being UL Listed and NSF Certified. These certifications demonstrate the high level of quality and safety that the DRF Machine offers to medical professionals.

The DRF Machine is a versatile and reliable tool for a variety of medical applications. Whether you are performing a complex surgical procedure or simply need to capture high-quality images for diagnostic purposes, this fluoro x ray machine from VOLITION is an excellent choice for any healthcare facility.

### Customization:

Our mobile fluoroscopy machine, also known as a radiographic fluoroscopic system, is manufactured in China and comes with ISO13485 and FSC certifications to ensure top quality.

Choose your preferred tube current of 630mA and take advantage of the machine's portability with a weight of only 50 lbs.

The VOLITION DRF Machine is powered by electricity and can be customized to work with either a 110V or 220V power supply.

Rest easy with our 1-year warranty and contact us to discuss additional customization options.
