

DRF Veterinary Digital Radiography Dental Xray Unit ISO13485 Standard

Our Product Introduction

for more products please visit us on xray-system.com

Basic Information

- Place of Origin: China
- Brand Name: VOLITION
- Certification: ISO13485、FSC
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Standard Exportation Package
- Delivery Time: 7-15 work days
- Payment Terms: LC, T/T, D/P, PayPal, Western Union

Product Specification

- Voltage: 120V
- Certifications: UL Listed, NSF Certified
- Frequency: 60Hz
- Weight: 50 Lbs
- Tube Current: 630mA
- Max Output Power: 50kw
- Manufacturer: DRF Corporation
- Dimensions: 24 X 18 X 12 Inches
- Highlight: **DRF veterinary digital radiography, ISO13485 veterinary digital radiography, DRF dental xray unit**

Product Description

Product Description:

The X-ray tube heat capacity of the DRF Machine is 300Khu (210KJ), which means that it can handle a high volume of imaging without overheating. The tube current of 630mA ensures that the machine can produce clear and accurate images, even in challenging conditions. With a max output power of 50kw, the DRF machine is capable of delivering the high levels of energy required for complex procedures.

The DRF Machine is a c-arm fluoroscopy machine that is ideal for use in a variety of medical settings, including hospitals, clinics, and medical offices. Its compact design and mobility make it easy to move from room to room, allowing medical professionals to provide the best possible care for their patients.

The DRF Machine is designed with the needs of medical professionals in mind. It features a user-friendly interface that allows for easy operation, even by those with little to no experience with fluoroscopy machines. The machine's voltage of 120V ensures that it can be used in a variety of settings, without the need for specialized electrical equipment.

In summary, the DRF Machine is a high-quality fluoroscopy machine that is built to last and provide accurate imaging for medical professionals. Its high X-ray tube heat capacity, tube current, and max output power make it ideal for complex procedures, while its mobility and user-friendly interface make it easy to use in a variety of medical settings.

Features:

Product Name: DRF Machine

Frequency: 60Hz

Output Power: 50kw

Power Source: Electric

Manufacturer: DRF Corporation

Material: Stainless Steel

The DRF Machine is a powerful and durable fluoroscopy machine designed for medical professionals. With a frequency of 60Hz and an output power of 50kw, it can handle even the most demanding medical procedures. Its electric power source makes it easy to use and maintain, while its stainless steel construction ensures long-lasting reliability. Whether you need a fluoro x ray machine, mobile fluoroscopy machine, or portable fluoroscopy machine, the DRF Machine is the perfect choice for your medical facility.

Technical Parameters:

Output Power	50kw
Max Capacity	200 Lbs
Tube Current	630mA
Voltage	120V
Power Supply	110V/220V
Warranty	1 Year
Dimensions	24 X 18 X 12 Inches
Certifications	UL Listed, NSF Certified
Max Output Power	50kw
Power Source	Electric

This digital fluoroscopy machine has a maximum output power of 50kw and a tube current of 630mA. It has a voltage of 120V and a power supply of 110V/220V. The machine has a 1 year warranty and its dimensions are 24 X 18 X 12 Inches. It is UL Listed and NSF Certified.

Applications:

The DRF machine is a portable fluoroscopy machine that can be easily transported to different locations for various applications. It is perfect for hospitals, clinics, and private practices. The machine is compact and lightweight, weighing only 50 Lbs, making it easy to move around. The portability of the machine makes it ideal for use in emergency situations where time is of the essence.

The DRF machine is suitable for a variety of occasions and scenarios, including orthopedic surgery, gastrointestinal procedures, and urological examinations. It can also be used in interventional radiology and pain management procedures. The machine is easy to operate, and the images produced are of high quality, making it an essential tool for medical professionals.

The DRF machine is also useful in sports medicine, where it can be used to diagnose and monitor injuries such as fractures and dislocations. The machine can also be used by veterinarians for animal radiography and other medical procedures. The versatility of the DRF machine makes it a must-have for any medical facility.

Customization:

Packing and Shipping:

Product Packaging:

DRF Machine

Power cord

Instruction manual

Warranty card

Shipping:
