

50Kw 60Hz Stainless Steel DRF Machine X Ray Fluoroscopy Veterinary Radiology Equipment

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: VOLITION
- Certification: ISO13485、FSC
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Standard Exportation Package
- Delivery Time: 7-15 work days
- Payment Terms: LC, T/T, D/P, PayPal, Western Union

Product Specification

- Max Output Power: 50kw
- Weight: 50 Lbs
- Material: Stainless Steel
- Max Capacity: 200 Lbs
- Output Power: 50kw
- Power Source: Electric
- X-ray Tube Heat Capacity: 300Khu (210KJ)
- Frequency: 60Hz
- Highlight: **50Kw 60Hz DRF Machine, Veterinary Radiology DRF Machine, Fluoroscopy veterinary radiology equipment**

Product Description

Product Description:

The DRF Machine is powered by electricity, ensuring reliable and consistent performance. This machine is UL Listed and NSF Certified, ensuring that it meets the highest standards of safety and quality. These certifications demonstrate that this machine has been rigorously tested and evaluated to ensure that it meets the stringent requirements of the medical industry.

The DRF Machine features an x-ray tube heat capacity of 300Khu (210KJ), making it a powerful and effective tool for medical imaging. This machine is capable of producing high-quality images quickly and efficiently, allowing medical professionals to diagnose and treat patients with ease.

One of the key features of the DRF Machine is its versatility. This machine can be used for a wide range of medical applications, including c-arm fluoroscopy, mobile fluoroscopy, and more. Whether you need to perform a routine diagnostic test or a complex surgical procedure, this machine is designed to meet your needs.

In conclusion, the DRF Machine is a top-of-the-line x-ray fluoroscopy machine that is ideal for use in a range of medical settings. With its compact size, reliable performance, and versatile capabilities, this machine is an essential tool for any medical professional who needs high-quality imaging equipment. So if you're looking for a machine that can deliver exceptional results, look no further than the DRF Machine.

Features:

Product Name: DRF Machine

Max Output Power: 50kw

Dimensions: 24 X 18 X 12 Inches

X-ray Tube Heat Capacity: 300Khu (210KJ)

Material: Stainless Steel

Power Supply: 110V/220V

This DRF Machine is a portable fluoroscopy machine that can also be used as a radiographic fluoroscopic system. Its stainless steel material ensures durability and its max output power of 50kw and x-ray tube heat capacity of 300Khu make it a reliable option for medical professionals. It also comes with a power supply of 110V/220V and has dimensions of 24 X 18 X 12 Inches, making it easy to transport and set up.

Technical Parameters:

Tube Current:	630mA
Max Capacity:	200 Lbs
Power Supply:	110V/220V
Output Power:	50kw
Certifications:	UL Listed, NSF Certified
Warranty:	1 Year
Power Source:	Electric
Manufacturer:	DRF Corporation
Dimensions:	24 X 18 X 12 Inches
Voltage:	120V

This table contains technical parameters for the DRF Corporation's fluoroscopy machine, also known as a fluoro x ray machine or radiographic fluoroscopy.

Applications:

With its ISO13485 and FSC certifications, the VOLITION DRF Machine is a reliable and trustworthy option for medical facilities looking for a high-quality fluoroscopy machine. Its 60Hz frequency and 120V voltage ensure that it is powerful enough to handle even the most complex medical procedures.

This fluoro x ray machine is perfect for a variety of medical applications, including diagnosing and treating conditions such as fractures, tumors, and gastrointestinal disorders. Its advanced imaging technology allows medical professionals to see detailed images of the internal structures of the body, making it a valuable tool for both diagnosis and treatment.

The VOLITION DRF Machine is also incredibly versatile, making it ideal for a wide range of medical scenarios and applications. Its compact dimensions of 24 X 18 X 12 inches mean that it can easily be used in small medical facilities or even in remote locations. Additionally, its 1-year warranty provides peace of mind for medical professionals who need a reliable and long-lasting fluoro x ray machine.

Overall, the VOLITION DRF Machine is an excellent choice for medical facilities looking for a top-quality fluoroscopy machine. Its advanced imaging technology, reliability, and versatility make it a valuable tool for a wide range of medical applications and scenarios.

Customization:

Packing and Shipping:

Product Packaging:

The DRF Machine is carefully packed in a sturdy cardboard box with foam inserts to prevent any damage during shipping. The package dimensions are 24 x 18 x 12 inches and it weighs approximately 40 pounds.

Shipping:

We offer free shipping to all locations within the United States. Orders are typically processed within 2 business days and shipped via UPS Ground. Delivery times vary depending on your location, but most orders arrive within 5-7 business days.
