

## 50kW Electric Digital Fluoroscopy Dental DRF Machine 300Khu X Ray Tube

Our Product Introduction

for more products please visit us on [xray-system.com](http://xray-system.com)

### Basic Information

- Place of Origin: China
- Brand Name: VOLITION
- Certification: ISO13485、FSC
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Standard Exportation Package
- Delivery Time: 7-15 work days
- Payment Terms: LC, T/T, D/P, PayPal, Western Union

### Product Specification

- X-ray Tube Heat Capacity: 300Khu (210KJ)
- Power Source: Electric
- Manufacturer: DRF Corporation
- Certifications: UL Listed, NSF Certified
- Material: Stainless Steel
- Weight: 50 Lbs
- Output Power: 50kw
- Warranty: 1 Year
- Highlight: 50kW DRF Machine, fluoroscopy DRF Machine, 300Khu digital dental x ray machine

## Product Description

### Product Description:

The DRF Machine operates on a voltage of 120V and has dimensions of 24 X 18 X 12 inches, making it a compact and portable mobile fluoroscopy machine that can be easily transported to different locations. The machine is designed to be user-friendly and intuitive, with a simple interface that allows for easy operation.

One of the key features of the DRF Machine is its X-ray tube heat capacity of 300Khu (210KJ), which ensures that it can handle high-volume imaging procedures with ease. This makes it an ideal choice for hospitals, clinics, and imaging centers that need a reliable and efficient machine for fluoroscopy procedures.

The DRF Machine also comes with a power supply of 110V/220V, which means that it can be used in a wide range of settings without any issues. Whether you need to use it in a hospital, clinic, or mobile imaging center, the DRF Machine is designed to be versatile and adaptable to your needs.

In summary, the DRF Machine from DRF Corporation is a high-quality digital fluoroscopy machine that offers exceptional image quality, versatility, and reliability. Whether you are looking for a portable mobile fluoroscopy machine or a stationary machine for your imaging center, the DRF Machine is an excellent choice that is sure to meet your needs.

### Features:

Product Name: DRF Machine

Weight: 50 Lbs

Max Capacity: 200 Lbs

X-ray Tube Heat Capacity: 300Khu (210KJ)

Voltage: 120V

Certifications: UL Listed, NSF Certified

This medical diagnostic equipment is a fluoroscopy machine, also known as an x ray fluoroscopy machine.

### Technical Parameters:

Feature	Specification
Product Name	DRF Machine
Warranty	1 Year
Max Output Power	50kw
Voltage	120V
Weight	50 Lbs
Dimensions	24 X 18 X 12 Inches
Frequency	60Hz
Output Power	50kw
Material	Stainless Steel

Power Source	Electric
Tube Current	630mA
Product Description	The DRF Machine is a c-arm fluoroscopy machine, digital fluoroscopy machine, and radiographic fluoroscopic system made of stainless steel. It has a max output power of 50kw and a tube current of 630mA. It operates on 120V and 60Hz power and comes with a 1-year warranty. The machine weighs 50 lbs and has dimensions of 24 x 18 x 12 inches.

### Applications:

One of the primary applications for the VOLITION DRF Machine is in diagnostic imaging. This digital fluoroscopy machine is capable of producing real-time X-ray images of the body, which can be used to diagnose a variety of medical conditions. The machine is particularly useful in scenarios where real-time imaging is required, such as during surgical procedures or in emergency medical situations. Another common use for the VOLITION DRF Machine is in interventional radiology. The machine's high-quality imaging capabilities make it an excellent tool for guiding minimally invasive procedures, such as biopsies and injections. The machine can also be used to guide the placement of medical devices, such as stents and catheters.

In addition to diagnostic and interventional radiology, the VOLITION DRF Machine is also commonly used in orthopedic surgery. The machine's real-time imaging capabilities make it an ideal tool for guiding surgical procedures, such as joint replacements and fracture repairs. The machine's durability and reliability make it an excellent choice for use in busy surgical settings.

The VOLITION DRF Machine is an excellent choice for medical facilities that require high-quality imaging capabilities and reliable performance. The machine is UL Listed and NSF Certified, ensuring that it meets the highest safety and quality standards. The machine is manufactured by DRF Corporation, a leading medical device manufacturer based in China. The company holds certifications for ISO13485 and FSC, demonstrating its commitment to quality and sustainability.

Overall, the VOLITION DRF Machine is an excellent choice for medical facilities that require a versatile and reliable fluoro x ray machine. Its high-quality imaging capabilities, durability, and safety certifications make it an ideal tool for a variety of medical applications.

### Customization:

### Packing and Shipping:

#### Product Packaging:

The DRF Machine will be packaged in a sturdy cardboard box with foam inserts to ensure safe transportation. The product will be wrapped in plastic to protect it from any moisture or dust during shipping.

#### Shipping:

We offer free shipping for the DRF Machine within the United States. Shipping times may vary depending on your location, but we aim to deliver the product to you within 5-7 business days. International shipping is also available for an additional fee.
