- Delivery Time: 7-15 work days
- Payment Terms: LC, T/T, D/P, PayPal, Western Union

China VOLITION

Product Specification

Output Power:	50kw
Dimensions:	24 X 18 X 12 Inches
Certifications:	UL Listed, NSF Certified
• Frequency:	60Hz
Weight:	50 Lbs
 X-ray Tube Heat Capacity: 	300Khu (210KJ)
Power Supply:	110V/220V
Material:	Stainless Steel
Highlight:	dental xray digital radiography equipment, C Arm digital radiography equipment, C Arm Fluoroscopy dental xray equipment

Product Description:

The DRF Machine is UL Listed and NSF Certified, ensuring that it meets the highest standards of safety and quality. The machine is equipped with a tube current of 630mA, allowing for accurate and clear radiographic fluoroscopy. This feature makes it an ideal choice for medical professionals who require precise images for diagnosis and treatment purposes.

The DRF Machine comes with a 1-year warranty, giving customers peace of mind knowing that they can rely on the product for an extended period. The warranty covers any defects in material or workmanship, ensuring that customers are protected against any issues that may arise.

The DRF Machine runs on a voltage of 120V, making it compatible with standard electrical outlets found in most medical facilities. This feature makes it easy to integrate the machine into existing systems without requiring additional modifications or equipment. In summary, the DRF Machine is a reliable and efficient radiographic fluoroscopy system that is designed to meet the needs of medical professionals. With its mobility and accurate imaging capabilities, it is an ideal choice for hospitals and clinics that require a mobile fluoroscopy machine. Its UL Listing and NSF Certification ensure that it meets the highest standards of safety and quality, while its 1-year warranty provides customers with peace of mind.

Features:

Product Name: DRF Machine X-ray Tube Heat Capacity: 300Khu (210KJ) Output Power: 50kw Max Output Power: 50kw Warranty: 1 Year Manufacturer: DRF Corporation Features: Fluoroscopy machine Portable fluoroscopy machine Digital fluoroscopy machine

Technical Parameters:

Power Supply	110V/220V
Certifications	UL Listed, NSF Certified
Dimensions	24 X 18 X 12 Inches
Material	Stainless Steel
Voltage	120V
Frequency	60Hz
Max Capacity	200 Lbs
Tube Current	630mA
Weight	50 Lbs
Manufacturer	DRF Corporation

This table contains the technical parameters for the DRF Machine product. The DRF Machine is a mobile fluoroscopy machine that is portable and can be used for fluoro x-ray procedures.

Applications:

The machine has a power output of 50kw and is compatible with both 110V and 220V power supply. It has dimensions of 24 X 18 X 12 inches and operates at a frequency of 60Hz.

The VOLITION DRF Machine is certified with ISO13485 and FSC, ensuring that it meets the highest standards for quality and safety. The machine is suitable for a range of medical applications, including gastroenterology, cardiology, and urology. It can be used for both diagnosis and treatment purposes, providing accurate and detailed images of the body's internal structures.

The VOLITION DRF Machine is particularly useful for procedures that require real-time imaging, such as interventional radiology, where doctors need to guide catheters and other instruments through the body.

The machine is also useful for procedures that require a combination of radiographic and fluoroscopic imaging, such as orthopedic surgeries.

Overall, the VOLITION DRF Machine is a versatile and reliable piece of equipment that can be used in a range of medical contexts. Its high-quality radiographic fluoroscopy capabilities make it an essential tool for any hospital or medical center.

Customization:

Packing and Shipping:

The DRF Machine will be packaged in a sturdy cardboard box with foam inserts for protection during transit. The box will be labeled with the product name, product code, and handling instructions. Inside the box, the DRF Machine will be wrapped in bubble wrap to prevent any scratches or damage during transportation. Shipping:

The DRF Machine will be shipped via a reliable courier service that provides tracking information. Shipping fees will be calculated based on the destination and weight of the package. The estimated delivery time will vary depending on the shipping destination.
