

## Dental Digital Mobile Fluoroscopy Machine X Ray For Seamless Oral Imaging

Our Product Introduction

for more products please visit us on [xray-system.com](http://xray-system.com)

### Basic Information

- Place of Origin: China
- Brand Name: VOLITION
- Certification: ISO13485、FSC
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Standard Exportation Package
- Delivery Time: 7-15 work days
- Payment Terms: LC, T/T, D/P, PayPal, Western Union

### Product Specification

- Resistance: Not Larger Than 1Ω
- Products: Mobile Medical X Ray Machine
- Item: Portable X Ray Machine
- Voltage Frequency: 380V/220V 50HZ
- Rectifier Method: Full-wave Rectifier
- Washing Control: To Enter Water 2~8L/min Automatically
- Max Current: 500mA
- X Ray Tube Type: Rotating Anode
- Highlight: **Dental mobile fluoroscopy machine,  
Seamless mobile fluoroscopy machine,  
Oral Imaging mobile digital x ray machine**

## Product Description

### Product Description:

The Medical X Ray Machine is made from high-quality stainless steel, ensuring durability and longevity. Its compact design makes it easy to move around and position in tight spaces, making it a great choice for busy clinics and hospitals.

The voltage frequency of this digital x ray system is 380V/220V and 50HZ, ensuring that it can be used in a variety of settings. With its nominal power of 100kV, 40mA, 0.1s, and 4kW, you can be confident that you are getting the best possible performance from your equipment.

Our Medical X Ray Machine is an essential piece of veterinary radiology equipment, making it perfect for use in clinics and hospitals that treat animals. It is easy to use, and its high-quality images make it easy to diagnose a variety of conditions.

In summary, our Mobile Medical X Ray Machine is a top-of-the-line product that is perfect for use in a variety of settings. Its Kv Range of 40-150 KV, voltage frequency of 380V/220V and 50HZ, and nominal power of 100kV, 40mA, 0.1s, and 4kW make it one of the most powerful and versatile x-ray machines on the market today. Whether you need it for human or veterinary use, this small x ray machine is the perfect choice for you.

### Features:

Product Name: Medical X Ray Machine

X Ray Tube Type: Rotating Anode

Products: Mobile Medical X Ray Machine, small x ray machine, veterinary portable x ray machine, portable x ray unit

Material: Stainless Steel

Power Supply: 220V/50Hz

Washing Control: To Enter Water 2~8L/min Automatically

### Technical Parameters:

Washing Control	To Enter Water 2~8L/min Automatically
Kv Range	40-150 KV
Resistance	Not Larger Than 1Ω
Voltage Frequency	380V/220V 50HZ
X Ray Tube Type	Rotating Anode
Voltage And Current	40kV 49kV 1 180 MAs
Mas	0.4-360mAs
Nominal Power	100kV, 40mA, 0.1s, 4kW
Material	Stainless Steel
Max Current	500mA

### Applications:

One of the key benefits of the VOLITION Medical X Ray Machine is its portability. This portable x ray unit can be easily transported between different locations, making it ideal for use in emergency situations or in settings where space is limited. It is also suitable for veterinary radiology equipment, allowing for quick and accurate imaging of animals in a range of different settings.

The VOLITION Medical X Ray Machine is suitable for a wide range of different applications. It can be used for imaging bones, soft tissue, and organs, making it ideal for use in a variety of different medical specialties. It is particularly useful in emergency departments, where quick and accurate imaging is essential for making accurate diagnoses and determining the best course of treatment.

In addition to its use in emergency departments, the VOLITION Medical X Ray Machine is also suitable for use in operating rooms, outpatient clinics, and other medical settings. Its ability to produce high-quality images quickly and accurately makes it an essential tool for many different medical professionals.

The VOLITION Medical X Ray Machine is also incredibly easy to use. Its voltage frequency of 380V/220V 50Hz and washing control, which allows it to enter water 2~8L/min automatically, make it simple to set up and use in a variety of different settings. Its intuitive interface and easy-to-use controls also make it easy for medical professionals to quickly and accurately produce high-quality images.

### Customization:

Our product, the VOLITION Mobile Medical X Ray Machine, can be customized to fit your specific needs. As a top-of-the-line industrial radiography equipment, it is designed and manufactured in China with two certifications: ISO13485 and FSC, ensuring its quality and safety.

With a maximum current of 500mA and a rotating anode X Ray tube type, it offers precise and efficient imaging capabilities. The machine also has a Mas range of 0.4-360mAs and a Kv range of 40-150 KV, making it suitable for a variety of medical imaging needs.

Our product customization services allow you to tailor the machine to your requirements, ensuring that you get the best possible results. Whether you need a panoramic radiograph machine or other specialized features, we can work with you to create the perfect solution for your needs.

**Packing and Shipping:**

**Product Packaging:**

The Medical X Ray Machine will be securely packaged in a wooden crate to ensure maximum protection during shipping. The crate will be labeled with the product name, weight, and dimensions for easy identification.

**Shipping:**

The Medical X Ray Machine will be shipped via a trusted and reliable courier service. The shipping cost will be calculated based on the weight and destination of the product. Customers will be provided with a tracking number to monitor the status of their shipment. Delivery times may vary depending on the destination but typically range from 3-7 business days.
